

## MODEL: SB04

### 4amp (RMS) Electronic Battery Charger

- 12volt
- 4A max, 2A rated
- Automatic overload
- Short circuit and polarity reversal protection
- Recommended battery sizes: 8-40Ah, 100-250 CCA

Trade: \$24

## MODEL: SB05

### 5amp (RMS) Electronic Battery Charger

- 12volt
- 5A max, 3.5A rated
- Automatic overload
- Short circuit and polarity reversal protection
- Recommended battery size: 8-40 Ah, 130-250 CCA

Trade: \$39

**AUTOMATIC**

**AUTOMATIC**

## MODEL: SB08

### 8amp (RMS) Electronic Battery Charger

- 12volt
- 8A max, 5.6A rated
- Automatic overload
- Short circuit and polarity reversal protection
- Recommended battery size: 10-70 Ah, 270-530 CCA

Trade: \$48

## MODEL: SB10

### 10amp (RMS) Electronic Battery Charger

- 12volt
- 2A max, 5.8A rated
- Trickle and quick charge mode
- 2amp Lo, 10amp Hi max
- Automatic overload
- Short circuit and polarity reversal protection
- Recommended battery sizes: 10-40 (Lo) /50-80 (Hi) Ah, 100-250 (Lo) / 250-650 (Hi) CCA

Trade: \$65

**AUTOMATIC**

**AUTOMATIC**

## MODEL: SB55S

### 55amp Battery Charger

- 12volt engine starter
- 2/6/10amp, 6/12volt battery charger
- Trade quality
- Automatic overload
- Short circuit and polarity reversal protection
- Recommended battery sizes: 10- 140 Ah, 100-900 CCA

Trade: \$143

## MODEL: SB75S

### 75amp Battery Charger

- 12volt engine starter
- 2/6/12amp, 6/12volt battery charger
- Trade quality
- Automatic overload
- Short circuit and polarity reversal protection
- Recommended battery sizes: 10-170 Ah, 100-1100 CCA

Trade: \$160

**AUTOMATIC**

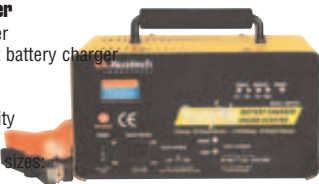

**AUTOMATIC**

## MODEL: SB125S

### 125amp Battery Charger

- 12/24volt engine starter
- 5/10/22amp, 12/24volt battery charger
- Trade quality
- Automatic overload
- Short circuit and polarity reversal protection
- Recommended battery sizes: 25-300 Ah, 200-1300 CCA

Trade: \$320

## MODEL: SB200S

### 200amp Battery Charger

- 12/24volt engine starter
- 5/10/30amp, 12/24volt battery charger
- Trade quality
- Automatic overload
- Short circuit and polarity reversal protection
- Recommended battery sizes: 25-420 Ah, 200-1300 CCA

Trade: \$355

**AUTOMATIC**

**AUTOMATIC**

## MODEL: SMARTEC6

### 6amp Continuous, Switch Mode 12volt Electronic Battery Charger

- 12volt
- 6A max, 6A rated
- Automatic overload
- Short circuit and polarity reversal protection
- Full electronic pulse technology
- Recommended battery size: 15-80 Ah, 100-600 CCA

Trade: \$50

**SCORPION BATTERY CHARGERS** provide a combination of the latest technology and a host of user friendly features. These compact, high powered units provide excellent amperage return and are fully automatic.

They are designed to fully charge the battery and then maintain the charge. They can be used on conventional lead acid and maintenance free batteries.

The **Smartec Series** can also be used on those and other specialized batteries.

Please call Austech for more information about the Smartec Battery Chargers.
